# GENERATION STRUCTURES

## FEATURES

- Elegant design
- Easy to theme
- More interactivity
- Modular design to fit custom sizes
- Improved water flow and piping system
- Improved and enlarged platforms
- Great integrity in higher levels
- Any type any size tipping bucket friendly
- Updated design according to latest changes in international norms
- Trendy look
- Huge selection of slide options available
- Wide variety of aquatic play features

*Polin now offers RTM ( Resin Transfer Molding) manufactured waterslides within the play structures. Slides manufactured with RTM technology, which is a closed mold technology and which is the latest innovation in waterslide manufacturing, besides many advantages, offer a smooth and perfectly shiny finish on both sides, contributing a lot to the aesthetic appearance of the structure as a whole.*
